Re: WC Docket No. 10-90

To Whom It May Concern:

At the request of Ms. Renee Willer, Manager of Gervais Telephone Company, I had my staff undertake a review of whether we provide service in any of the census blocks that are contained in the service areas of Gervais Telephone Company, Monitor Cooperative Telephone Company, Mt. Angel Telephone Company and St. Paul Cooperative Telephone Association.

Upon review, it turns out that McMinnville Access Company d/b/a Online Northwest does not provide service to any customers in any of the census blocks served by any of those four companies. It has not been the intention of McMinnville Access d/b/a Online Northwest to market in those service areas, nor have we done so directly. We would not refuse service if a customer in those areas contacted us and asked for service from us if we could physically serve the customer. However, that has not occurred to date.

Based on our review, I made the decision to have McMinnville Access Company d/b/a Online Northwest modify its June, 2015 Form 477 to remove these areas from the Form 477. That took place on April 27, 2016. Pursuant to the information contained in DA 16-378, the FCC Registration Number or FRN for McMinnville Access Company d/b/a Online Northwest is 0014426852. That should assist the Commission in identifying the changes that were made to the Form 477.

Sincerely,

A handwritten signature in cursive script that reads "Kathy Tate".
